ABSTRACT

We have developed this Resto Website for the people who likes to eat and discover new recipes. All the time it is not necessary to eat regular food for weeks its kind of boring life for this Website is develop. Also a lot Website already develop then what is the purpose to develop it because to give simple and friendly UI to quick find the recipes they want. Also to give new recipes and to give trending recipes to user which are loved by most of the people in the world. Also is direct to website which provide total information of that recipe and with video.

AKNOLEDGEMENT

I would like to express my gratitude to Nehal Patel,Vishwa Vala, my project advisor for providing me an opportunity to work on this project, which gave me a great exposure to develop the skills towards Android Application Development.

We thank him for his generous advice and encouragement which helped me to complete the project successfully. In addition, my gratitude is extended to Dr. Parth Shah, Head of Information Technology Department, Charusat Institute of Technology.

Chapter 5 Constraints and Future Enhancement

- The data of the recipes which is search on the webpage must generate a call to api to send data back and to post back on website.
- Further to link the firebase to login/signup page to verify.
- Also we are thinking of adding a new feature of selecting the recipes from adding just the ingredients you have.

Chapter 6 Conclusion

The project was an experience of working in a team. The importance of time bound and coordinated execution of work was realized. The website is a user friendly program and can be run by any person acquainted with of basic English and use of webpage. The preparation of this project has helped a lot to learn the much features of web development. A lot of problems are faced in styling process as according there use they are style and also a lot of event actions are solved properly. The project was a good way to further probe into the beautiful world of the page and amazing user friendly UI to easy way of use of webpage.
